

## **Operations Test Battery (OTB)**

Each candidate will complete four tests and answer-sheet instruments, including:

- Reading Comprehension
- Math 1
- Math 2
- Mechanical Comprehension

Results provide an indication of the candidate's general ability and mechanical comprehension.

### ***Scoring requirements***

Candidates are required to score 70 or greater for their composite score to advance in the selection process. Those candidates that do not pass the test may retest after six months. Once a candidate has passed the OTB, they will never need to retest.

### ***Testing conditions***

This test battery may be administered in a group setting and typically takes about three hours. There will be one 10-minute break during testing. All of the tests are multiple choice and require the candidate to record their answers on a separate answer sheet.

### ***Other considerations***

There are NO CALCULATORS allowed during testing. The testing administrator will provide all materials necessary for testing (i.e., pencils, scratch paper, etc.). Candidates need to bring photo identification such as a driver's license. Finally, be aware that candidates will not be permitted to eat, drink, use tobacco or wear hats of any kind during testing.

### ***Notification process***

Candidates will be contacted by the recruiter to inform them if they will be moving to the next phase of the selection process. Recruiters do not have individual test scores, only the passing status of candidates. Please do not ask for feedback regarding your testing.
